Conditions of Sale

Please note this is not the sale agreement. This is a simplified version of the conditions of the sale agreement. If you are approved to purchase a puppy from us you will be required to sign the full contract (see other document available on website) at the time of paying a deposit.

- All puppies are sold de-sexed before leaving Sedona. There are no exceptions. We do not want to risk any of our precious puppies becoming subject to irresponsible breeding.
- Prices of puppies start at \$3300. A deposit of \$1000 will be required at the time of choosing your puppy and the balance will be due for payment prior to the puppy leaving Sedona.
- Price includes de-sexing, microchip, first vaccination and full vet check.
- Transport costs are the buyer's responsibility. We are happy to help with any flight arrangements for interstate purchases. We have flown puppies all over Australia with no problems.
- If for any reason the puppy does not pass the veterinary health check (that all puppies will receive before leaving for their new homes), a full refund of all monies paid or replacement puppy will be offered to the buyer.
- It is recommended that a licensed veterinarian examine the dog during the first 72 hours of arriving at their new home.
- The buyer agrees that under no circumstances will the dog ever be handed over to a pound/ RSPCA or abandon the dog. If your circumstances change or you cannot provide a safe and healthy home, you are to return the dog to Sedona.
- Please educate yourself on the dachshund breed and ensure this is the right puppy for you.
